TRUEGREEN IS...

A smart packaging management system that digitizes and verifies individual cannabis products, seamlessly integrating with your legacy systems. It's the industry's most powerful and secure all-in-one smart packaging solution.

SERIOUSLY? HOW?

TrueGreen provides a unique digital identity to every single package, through a certified tamper evident seal, guaranteeing authenticity and efficiency.

Our tamper seal is designed with state-of-the-art anti-counterfeiting ink and printing technology, and is made "smart" by embedded RFID technology - opening up a world of possibilities from POS to customer loyalty.

OK, WHAT'S IN IT FOR ME?

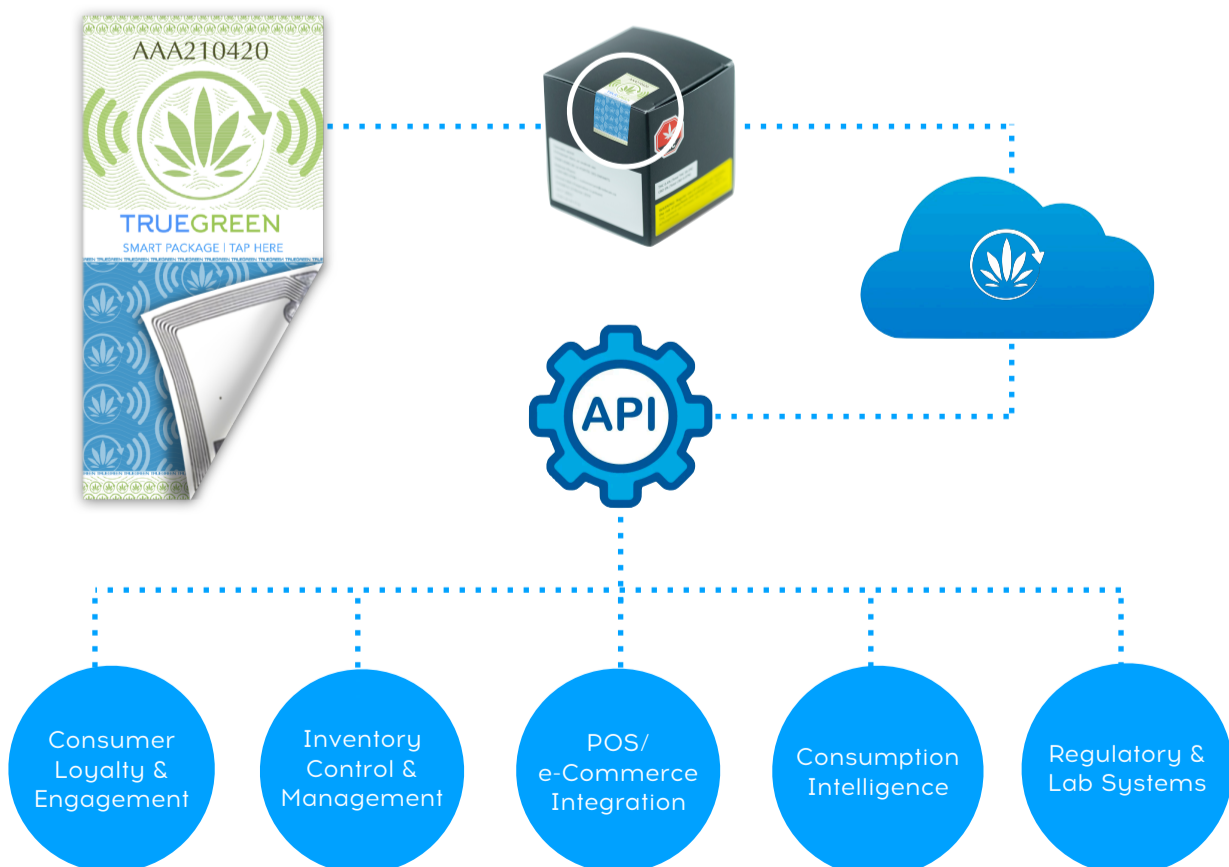

With digitally-enabled inventory control and an integrated consumer feedback loop, TrueGreen brings together all your systems and services into a single hub to grow your business.

ROI THAT MATTERS!

Safe & authentic verification + Greater efficiency and deeper customer engagement.

SMART CANNABIS

Extend the reach and impact of your systems by embedding them into your packaging with TrueGreen.

YOUR CANNABIS, MADE SMARTER™
